ABOUT ME

.NET Developer with experience building web applications using C# and ASP.NET MVC, focused on process automation and efficient data handling in business environments. Skilled in working with databases such as SQL Server and Oracle to design solutions that integrate business logic, data persistence, and information delivery. Able to translate operational requirements into functional applications that streamline processes and improve data availability for decision-making.

PROFESSIONAL EXPERIENCE

DATA ANALYST / WEB DEVELOPER Daikin Manufacturing Mexico - Sep 2024 - Mar 2026

Develop, support, and analyze internal systems for Production, Warehouse, and Supply Chain departments, focusing on operational data and process improvement.

- Analyze operational data using SQL Server and Oracle to identify recurring errors and process redundancies.
- Design and build dashboards and reports by production line and error type to detect patterns and root causes within logistical processes.
- Provide technical support for data cleansing and normalization tasks, including vendor, site, and labeling consistency.

Overtime Request - Finance

Internal application for calculating catering and transportation costs for Production personnel.

- Provide technical support and implement enhancements to the business logic for cost calculation.

Technologies: ASP.NET MVC, C#, SQL Server, Bootstrap.

Label System - Warehouse

Desktop application for generating and reprinting master labels.

- Integrated Oracle data via APIs to cross-reference and match vendor part numbers with internal company records.
- Normalized identifiers and generated barcode data for inventory accuracy.
- Implemented dynamic configurations using JSON files to allow flexible operational adjustments.

Technologies: C#, Oracle SQL, APIs, JSON, iText.

EDUCATION

Tangamanga University
B.S. in Information Technology (Degree in progress)
2022 - 2025

Smart Teaching
TOEFL Exam Preparation (6-month intensive program)
2025

A2 Capacitación
Data Science Specialization (Coursework in progress)
2025 - Present

Fundación Forge
Soft Skills Development and Professional Training
2025 - Present

HARD SKILLS

Languages (C# .NET, ASP.NET MVC / .NET Core, JavaScript)
Databases (MySQL, SQL Server, Oracle ERP)
MVC Architecture
Frontend (HTML, CSS, Bootstrap, jQuery)
Version Control (Git, GitHub)

SOFT SKILLS

Analytical Thinking
Problem Solving
Effective Communication
Attention to Detail
Proactivity

LANGUAGES

Spanish: Native

Ingles (B2)

CERTIFICATIONS

Python 3 Plus: Python desde Cero + Data Analysis y Matplot
Microsoft Office Specialist - 2019
