ABOUT ME

I am an Information Technology Engineer with experience in full stack development using ASP.NET MVC, C#, and databases such as SQL Server and Oracle. I focus on building web applications that solve problems in industrial environments, integrating backend, frontend, and data to optimize processes and generate useful information for decision making. I work with an analytical and structured approach, prioritizing functional, scalable solutions with real operational impact.

PROFETIONAL EXPERIENCES

Oracle Developer Daikin Manufacturing Mexico - Sep 2024 - Mar 2026

Involved in the analysis, support, and development of internal systems used by Production, Warehouse, and Supply Chain areas, with a focus on operational data and process optimization supported by Oracle systems.

- Analysis of operational data from Oracle and SQL to identify recurring errors and production rework.
- Development of reports and dashboards by production line and incident type, enabling pattern detection.
- Support in data cleansing, correction, and normalization activities for master and transactional data.

Overtime Request - Finance

Internal application for calculating meal and transportation costs for production staff.

- Provided support and improvements to business logic for cost calculation.

Technologies: ASP.NET MVC, C#, SQL Server, Bootstrap.

Label System - Warehouse

Desktop application for the generation and reprinting of master labels.

- Integration with Oracle through APIs to query supplier part numbers and internal part numbers.
- Flexible system configuration through JSON files to enable operational adjustments without impacting the codebase.

Technologies: C#, Oracle SQL, APIs, JSON, iText.

EDUCATION

Tangamanga College
Bachelor's Degree in Information Technology Engineering
2022 - 2025

Smart Teaching
6-month TOEFL iBT preparation course
2025

A2 Capacitación
Data Science course list
2025 - Present

HARD SKILLS

- Languages & Frameworks: C#, ASP.NET MVC
- Databases: SQL Server, Oracle
- Software Development: desarrollo de escritorio en C#
- Version Control: Git, GitHub
- Automation and support for operational processes

SOFT SKILLS

- Functional process analysis
- Operational problem solving
- Communication with business stakeholders
- Attention to detail and data quality
- Continuous improvement focus

LENGUAGES

Spanish (Native)

English (B2)

CERTIFICATIONS

PowerPoint (MOS) - Microsoft Office Specialist - 2019
Word (MOS) - Microsoft Office Specialist - 2019
Excel (MOS) - Microsoft Office Specialist - 2019
Python 3 Plus: Python desde Cero + Data Analysis y Matplot
