ABOUT ME

Hybrid Data Science and Software Development professional with experience in identifying operational patterns and improving industrial processes. Expert in leveraging SQL and Python to transform complex data into actionable insights. A natural strategist with a background in chess and the arts, bringing a creative and disciplined perspective to solving complex technical challenges.

PROFESSIONAL EXPERIENCE

WEB DEVELOPER Daikin Manufacturing Mexico - Sep 2024 - Mar 2026

Develop, support, and analyze internal systems for Production, Warehouse, and Supply Chain departments, focusing on operational data and process improvement.

- Analyze operational data using SQL Server and Oracle to identify recurring errors and process redundancies.
- Design and build dashboards and reports by production line and error type to detect patterns and root causes within logistical processes.
- Provide technical support for data cleansing and normalization tasks, including vendor, site, and labeling consistency.

Overtime Request - Finance

Internal application for calculating catering and transportation costs for Production personnel.

- Provide technical support and implement enhancements to the business logic for cost calculation.

Technologies: ASP.NET MVC, C#, SQL Server, Bootstrap.

Label System - Warehouse

Desktop application for generating and reprinting master labels.

- Integrated Oracle data via APIs to cross-reference and match vendor part numbers with internal company records.
- Normalized identifiers and generated barcode data for inventory accuracy.
- Implemented dynamic configurations using JSON files to allow flexible operational adjustments.

Technologies: C#, Oracle SQL, APIs, JSON, iText.

EDUCATION

Tangamanga University

B.S. in Information Technology (Degree in progress)
2022 - 2025

Smart Teaching

TOEFL Exam Preparation (6-month intensive program)
2025

A2 Capacitación

Data Science Specialization (Coursework in progress)
2025 - Present

Fundación Forge

Soft Skills Development and Professional Training
2025 - Present

HARD SKILLS

Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, SciPy)
Databases (MySQL, SQL Server, Oracle ERP)
Dashboards (Power BI, Excel)
Data Validation & Quality Assurance
Operational Reporting

SOFT SKILLS

Analytical Thinking
Problem Solving
Effective Communication
Attention to Detail
Proactivity

LANGUAGES

Spanish: Native

Ingles (B2)

CERTIFICATIONS

Python 3 Plus: Python desde Cero + Data Analysis y Matplot
Microsoft Office Specialist - 2019
