RICARDO ALEJANDRO PEREZ SANTILLAN

ASP.NET WEB DEVELOPER

Ricardo.a.p.Santillan@gmail.com | (55) 444-720-7320 | San Luis Potosí | https://alejandrops.dev/en/webdev

ABOUT ME

IT professional with experience in web development using ASP.NET MVC and C#, focused on building solutions for industrial environments. I have developed applications aimed at optimizing operational processes, integrating databases such as SQL Server and Oracle for efficient data handling. My experience includes improving workflows and significantly reducing operational errors through solutions with direct impact on production and warehouse areas. I focus on building functional applications with structured code, aimed at delivering real value to business processes.

PROFETIONAL EXPERIENCES

Oracle Developer Daikin Manufacturing Mexico - Sep 2024 - Mar 2026

Involved in the analysis, support, and development of internal systems used by Production, Warehouse, and Supply Chain areas, with a focus on operational data and process optimization supported by Oracle systems.

- Analysis of operational data from Oracle and SQL to identify recurring errors and production rework.
- Development of reports and dashboards by production line and incident type, enabling pattern detection.
- Support in data cleansing, correction, and normalization activities for master and transactional data.

Overtime Request - Finance

Internal application for calculating meal and transportation costs for production staff.

- Provided support and improvements to business logic for cost calculation.

Technologies: ASP.NET MVC, C#, SQL Server, Bootstrap.

Label System - Warehouse

Desktop application for the generation and reprinting of master labels.

- Integration with Oracle through APIs to query supplier part numbers and internal part numbers.
- Flexible system configuration through JSON files to enable operational adjustments without impacting the codebase.

Technologies: C#, Oracle SQL, APIs, JSON, iText.

EDUCATION

Tangamanga College
Bachelor's Degree in Information Technology Engineering
2022 - 2025

Smart Teaching
6-month TOEFL iBT preparation course
2025

A2 Capacitación
Data Science course list
2025 - Present

HARD SKILLS

- Languages & Frameworks: C#, ASP.NET MVC
- Databases: SQL Server, Oracle
- Software Development: desarrollo de escritorio en C#
- Version Control: Git, GitHub
- Automation and support for operational processes

SOFT SKILLS

- Functional process analysis
- Operational problem solving
- Communication with business stakeholders
- Attention to detail and data quality
- Continuous improvement focus

LENGUAGES

Spanish (Native)

English (B2)

CERTIFICATIONS

PowerPoint (MOS) - Microsoft Office Specialist - 2019
Word (MOS) - Microsoft Office Specialist - 2019
Excel (MOS) - Microsoft Office Specialist - 2019
Python 3 Plus: Python desde Cero + Data Analysis y Matplot
